### // 1. OUR COMMITMENT

---

Infinite Atom Technologies LLC is committed to ensuring that infinite-atom.com is accessible to people with disabilities. We are working to improve the accessibility of our platform and to provide an inclusive experience for all users, including those who use assistive technologies such as screen readers, keyboard navigation, and other accessibility tools.

### // 2. STANDARDS WE ARE WORKING TOWARD

---

We are working toward conformance with the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA as published by the World Wide Web Consortium (W3C). WCAG 2.1 AA covers a wide range of recommendations for making web content more accessible to people with disabilities including visual, auditory, physical, speech, cognitive, language, learning, and neurological disabilities.

### // 3. CURRENT ACCESSIBILITY STATUS

---

The Platform is currently under active development. We acknowledge that not all areas of the Platform currently meet WCAG 2.1 AA standards. Known areas of ongoing improvement include:

- Color contrast ratios on some interface elements — being reviewed and improved
- Keyboard navigation through all interactive elements — being implemented
- Alt text for all images — being added as content is updated
- Form labels and error messaging — being improved for screen reader compatibility
- Focus indicators for keyboard navigation — being made more visible
- COSMO AI widget accessibility — being reviewed for screen reader compatibility

We are actively working to address these known issues as the Platform develops. Accessibility improvements are incorporated into each development cycle.

### // 4. ASSISTIVE TECHNOLOGIES

---

We are working to ensure compatibility with the following assistive technologies:

- Screen readers including NVDA, JAWS, and VoiceOver
- Keyboard-only navigation
- Browser zoom and text scaling up to 200%
- High contrast display modes
- Voice control software
